

Fagligt område: **Sammensatte ord**

Mix & Match (Find makker)

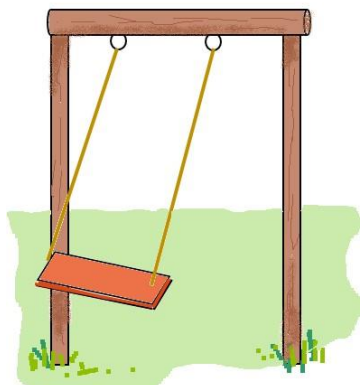

1. Kortene deles ud, så der er mulighed for at danne sammensatte ord. Ved ulige antal elever deltager lærer, eller der laves "siamesiske tvillinger".
2. På kommando "MIX!" - går alle stille rundt og bytter kort med tilfældige klassekammerater.
3. På kommando "MATCH!" - finder man sammen to og to, på en måde så de to billeder danner et sammensæt ord. Makkerparret sætter sig evt. sammen på gulvet.
4. Når mulige makkerpar er dannet læses de sammensatte ord højt - og i fællesskab løses evt. problem med "makkerløse" kammerater.
5. Ny runde starter.
